Green Township Resident

Dear Resident:

In order to better serve the water supply needs to your home in case of a fire, we are revising our hose deployment plan in all residential areas located a minimum of 900 feet from a fire hydrant.

These revisions require the use of "fire" signs located along the driving route to identify points of deployment. The signs are red in color and identify either a "Fire" 1, 2, 3, or 4, depending on the relative distance from the hydrant.

Over the next several months, our personnel may be working in your neighborhood to measure distances and install needed signs. If the signs create a problem on your property, we will gladly consider alternative mounting options or practical relocations.

If you have any concerns or questions regarding this project, please call me to discuss. I can be reached at (513) 574-0474.

Thank you!

Sincerely,

A handwritten signature in blue ink that reads "Scott Souders".

Assistant Chief, Scott Souders
